# HRASTOVO GABROVJE

- Rdeči bor in smreka sta v Udin borštu prevladujoči drevesni vrsti.
- Rdeči bor in smreka prevladujeta tam, kjer sta prisotni le dve drevesni vrsti.

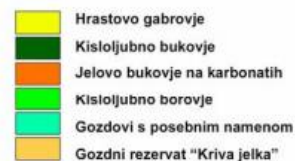

- Kot tretja vrsta se v družbi smreke in bora pojavljata hrast in bukev.

- Kjer imamo večjo pestrost, se poleg že naštetih vrst, pojavljajo še vrba, trepetlika, črni gaber, maklen, češnja, beli gaber, lipa in lipovec, poljski brest, veliki jesen ter topokrpnj in gorski javor

- Najpogosteje je kot tretja vrsta prisotna bukev.
- Kot tretja vrsta so pogosti graden, rdeči hrast, kostanj, siva in črna jelša.
- Kjer imamo večjo pestrost, se poleg že naštetih vrst, pojavljajo še vrba, trepetlika, črni gaber, maklen, češnja, beli gaber, lipa in lipovec, poljski brest, veliki jesen ter topokrpni in gorski javor.
- V kisljubnih bukovih imamo največjo vrsto pestrost (več kot 3 drevesne vrste).  
Tu ni črnega gabra, črne jelše in vrbe.
- Najmanjšo vrstno pestrost pa zasledimo v gozdovih s posebnim namenom v južnem delu, kjer prevladujeta smreka in rdeči bor.

A photograph of a forest floor covered in fallen, brown leaves. The leaves are scattered across the ground, with some small green plants and twigs visible. Three white text labels are overlaid on the image, identifying tree species: 'Bukev' in the center, 'Pravi kostanj' to its right, and 'Gaber' further to the right.

Bukev

Pravi kostanj

Gaber

**1 LETNICA POMENI 1 LETNI PRIRAST**

A photograph of a forest floor covered in fallen logs and branches. In the foreground, a large, moss-covered log lies horizontally across the frame. In the background, a pile of logs is visible, and the ground is covered with dry leaves and twigs. The scene is set in a wooded area with bare trees, suggesting an autumn or winter setting.

**SKLADOVNICA DRVU**

 SMREKA

 SMREKA

 **SMREKA**

A photograph of a large, mature tree trunk in a dense forest. The tree has a thick, textured bark and several horizontal branches extending outwards. The forest floor is covered with lush green ferns and other vegetation. The background is filled with more trees, creating a dense canopy. A blue circle is overlaid on the tree trunk, and the word "JELKA" is written in white capital letters next to it.

● RDEČI BOR

 RDEČI BOR

A photograph of a forest scene. In the center, a tall, thin tree with a dense, rounded canopy of dark green needles stands out against a pale, overcast sky. The tree's trunk is light brown and appears relatively smooth. Surrounding this central tree are other trees, including a large, leafy tree with bright green foliage on the right and several smaller, darker green trees on the left. The foreground is filled with the dense canopy of various trees, creating a rich, textured green background. The sky is filled with soft, greyish-blue clouds, suggesting an overcast day. The overall composition is a low-angle shot looking up at the trees.

**RDEČI BOR**

A photograph of a forest scene. In the center, a tall, slender pine tree stands out against a backdrop of denser, darker green trees. The foreground is filled with various green shrubs and bushes, some with bright yellow flowers. The sky is visible at the top, appearing overcast and grey. The overall atmosphere is lush and green.

● MACESEN

**BUKEV**

**BUKEV**

 **PRAVI KOSTANJ**

**PRAVI KOSTANJ**

A low-angle photograph looking up into the canopy of a tree. The leaves are predominantly golden-brown and yellow, with some green still visible, indicating autumn. The branches are dark and intricate, creating a complex web against a bright, overcast sky. The overall mood is serene and natural.

**GORSKI JAVOR**

**GORSKI JAVOR**

**GORSKI JAVOR**

A photograph of a tree trunk in a forest. The bark is light-colored and peeling in several places, revealing a darker, rougher inner layer. The tree is surrounded by other trees and bare branches, suggesting a late autumn or winter setting. The lighting is natural, with some shadows and highlights on the bark and branches.

 **HRAST**

● HRAST

A low-angle photograph looking up at a large, mature tree. The trunk is thick and textured, extending from the bottom right towards the top center. Several large, dark branches spread out across the frame, supporting a dense canopy of bright green leaves. The sky is visible through the gaps in the foliage, appearing bright and overcast. The overall composition is vertical, emphasizing the height and scale of the tree.

**BELI GABER**

**BELI GABER**

**VELIKI JESEN**

A close-up photograph of a tree's foliage. The image shows several branches with vibrant green, serrated leaves. The leaves are arranged in clusters along the stems. The background is filled with more dense greenery, creating a sense of a thick canopy. The lighting is bright, highlighting the texture and color of the leaves.

● BREZA

A photograph of a dense forest with many green trees. The word "BREZA" is written in white capital letters in the upper right area of the image. The trees are mostly deciduous with bright green leaves, and some darker evergreen trees are visible in the background. The lighting is bright, suggesting a sunny day.

**BREZA**

**BREZA**

● AKACIJA

A low-angle photograph looking up at a large acacia tree. The tree's trunk is thick and dark, branching out into a dense canopy of bright green, pinnate leaves. The sky is visible through the branches, appearing bright and slightly overcast. In the bottom right corner, there are some dark, out-of-focus branches of another tree.
