Distance

#### Product:

- ★ A lightweight headlamp with three highlight LED lamp beads.
- A super-bright high power lamp bead from Corey of United States provides remote spot lighting.
- Two super-bright side lamp beads provide short-range flood lighting.
- ★ Three kinds of lightning brightness: high, medium and low brightness.

#### Instructions for use:

- ★ 2 For the far and near light mode transformation, please refer to Chart 2.
- ★ Do not use this product in the extremely cold or hot environments (below  $-30^{\circ}\text{C}$  or above  $60^{\circ}\text{C}$ ). This product is ordinary Waterproof IPX6. Do not use it under the water, or the lamp circuit fault may be caused by water seepage.

#### Energy:

- ★ Use high-quality alkaline batteries or Ni-MH rechargeable batteries for products.
- ★ Do not use rechargeable lithium battery, so as not to exceed the rated voltage.
- ★ Do not use batteries of different brands or mixed old and new batteries.
- ★ The battery life is affected by different brands, different ambient temperature and different lighting modes.
- ★ Please recycle used batteries reasonably

#### Maintenance:

- ★ If the product is affected with damp, remove the battery and dry them.
- ★ Do not make the lamp lenses rubbing with other hard objects. The worn lens will affect the light.
- ★ If the product is not used for a long time, remove the batteries to prevent battery depletion or battery fluid leakage.

#### Troubleshooting:

- ★ If the battery is installed, the lamp does not work properly, please:
  - Press the switch button several times to try.
  - Check that the battery polarity is correctly installed.
  - Check whether there is debris on the contacts which led to poor contact.
  - Check whether there is water on the lamp. After it is dried, try again.

#### Caution:

- ★ Before the lamp is used, be sure to read this manual carefully for proper use and maintenance.
- ★ Children under 12 years of age should use the product under the adult's supervision and guidance.
- ★ Always set aside a spare lamp and a few spare batteries.
- ★ Do not disassemble this product.
- ★ Do not attempt to modify the product.

#### Warranty:

- ★ The Company promises to each customer solemnly, for quality problems caused by the product design or manufacturing defect, you can contact your local dealer for warranty issues against the invoice and the proof of purchase within two years from the date when it is purchased, but the damage caused by improper use does not belong to this range.

**Izdelek:**

- \* Lahki žaromet s tremi LED žarometi kroglice.
- Izjemno svetla žarnica velike moči podjetja Carey
- Združene države zagotavljajo oddaljeno razsvetljavo.
- Dve super-svetli stranski svetilki zagotavljata kratki doseg poplavna razsvetljava.

\* Tri vrste svetlosti svetlobe: visoka, srednja in nizka svetlost.

**Navodila za uporabo:**

- \* 2Za daljinsko in bližnjo pretvorbo svetlobnega načina, prosim glej graf 2.
- \* Tega izdelka ne uporabljajte v izredno hladnem ali klobuku okoljih (nizka - 30 il ali nad 60 il).

Ta izdelek je navadno vodoodporen IPX6. Ne uporabljajte ga pod vodo, ali pa je lahko vzrok za zanos žarnice s pronicanjem vode.

**Energija:**

- \* Uporabljajte visokokakovostne alkalne baterije ali Ni-MH akumulatorje baterije za izdelke. \* 00 ne uporabljajte polnilne litijeve baterije, da ne presejajo nazivno napetost.
- \* Ne uporabljajte baterij različnih znamk ali mešanih starih in nove baterije.
- \* Življenjska doba baterije je odvisna od različnih znamk, ki so drugačne temperaturo okolja in različne načine osvetlitve.
- \* Prosimo, da recikirate rabljene baterije

**Vzdrževanje:**

- \* Če je izdelek izpostavljen vlagi, odstranite baterijo in jih posušite.
- \* Svetilke ne smete drgniti z drugimi trdi cilji. Ženske bodo vplivale na svetlobo.
- \* Če izdelka dlje časa ne uporabljate, ga odstranite baterij, da preprečite izpraznitev akumulatorja ali puščanje akumulatorske tekočine.

**Odpravljanje težav:**

- \* Če je baterija nameščena, žarnica ne deluje pravilno, prosim:  
-Pritisnite stikalni gumb večkrat, da poskusite.
- Preverite, ali je polariteta baterije pravilno nameščena.
